

INDIAN GHERKINS

WITH A HIGH NUTRITIONAL VALUE

GEEWIN EXIM
QUALITY IS OUR NATURE

Gherkins are a type of a cucumber which is widely used by western countries for pickling. Gherkins are known its lower fat content which may reduce the risk of heart disease. We have a chain of farmers in cultivation of gherkins mostly in the southern part of Tamilnadu. We maintain an excellent quality control process in our factories which ensures best in class products.

PRESERVED IN

- Natural Alcohol Vinegar
